

Year 1 Writing words - Summer Term 2

Dear parents,

This term we would like the children to continue to remember and write more of their red words correctly in order to help them to be more confident writers and be ready for Year 2.

Each week we would like them to learn and practise 7 red words really well. If they achieve this easily, they could try the extra three challenge words. Please help them at home by letting them practise the words in their favourite pens, with a stick in the sand or in any other fun way! We will give them the chance to show off what they know by writing the words in a special book at school.

Please find the focus words for each week below. If you have any questions then please let us know!
