Year 3 Autumn 1 Home Learning Tasks

This term we have an exciting start to year 3. We will be learning about writing diary entries when reading 'Meerkat Mail' in our English sequence. We will be looking at place value when build our maths knowledge. As scientists we will be investigating how magnets work. As Historians we will be exploring the world of the Ancient Egyptians. As Geographers, we will be learning about rivers and their features. In RE we will learn about Hinduism through stories. In Computing, we will be learning how computer systems stay connected and build our understanding of movement in PE. Our PE days will be on Mondays, please ensure that your child brings in their PE kit to school by Friday of the week beginning 4th September 2023. Our Homework books will be handed out during the first week the children are back, these are usually **due on a Wednesday** for the teachers to mark and return by Friday. During the first couple of weeks your child will complete an accelerated reading star quiz and bring home a book to read with an assigned ZPD. This book must be read at least twice before your child can complete a quiz in school. We recommend that you do the first read with your child and thereafter the second read can be completed independently. Each week you can choose one or two activities from the grid below. This part of your home learning should take no longer than 1 hour. Please continue to enjoy plenty of reading!

TTRockstars website: https://ttrockstars.com/

Create a poster on how a digital device works and how you stay connected.	Create a diagram of how a magnet works and share this with a family member.	Draw a picture of a Hindu story you have learnt and share it with a grown up at home.	Create a PowerPoint or fact file about a member of your family
Research and build a fact file about the ancient Egyptians	Practise your multiplication on this interactive game. https://uk.ixl.com/maths/year-3/identify-multiplication-expressions-for-equal-groups	Create an Egyptian Mummy	If you have an opportunity to go for a walk, can you count your steps in multiples of 4?
Can you make digit cards from 1-9 Pick three digits to create a three digit number. For example 345 and then write how many hundreds, tens and ones there are in this number. Example: 345 has 3 hundreds, 4 tens and 5 ones	Write a recount of your favourite activity during the summer holidays and bring it in share it with the class.	Practise some more place value using this link https://mathsframe.co.uk/en/resources/resource/61/itp-place-value	Write a book review for a book you have read over the summer holidays.
