

CARD GAME ONE: SALUTE! (3 players)

1. One player to be the 'dealer', the other two players to be 'saluters'.
2. Dealer hands out a card (face down!) to each of the players and shouts Salute!
3. The two 'saluters' turn their card up on to their forehead so the other person can see.
4. The dealer then says a number which can be found when the two numbers are multiplied together.  
E.g. Child one has card with 8 on, Child two has card with 6 on. Dealer would say 48.
5. The two 'saluters' race to figure out their number.
