

DICE GAME TWO: Shut the box (two players)

You will need an adult or friend to play with.

You will also need two dice and the numbers one to twelve written on a whiteboard.

The aim of the game is to rub off all the numbers.

To play the game, start with all of the numbers written on the whiteboard. Player one rolls the two dice first. They can turn over the cards which are the total of those two numbers. For example, if a 4 and a 5 are rolled, they would rub the number 9. If a double is thrown, their turn ends. They can roll the dice again until they can't rub off any more numbers. The numbers left on the whiteboard should be added together and that is the score. The lowest score wins!
