

ALL, SOME, NONE

Write three or four random numbers on the board. Pupils talk with a partner, using a whiteboard and pen if that helps, to construct three sentences about those numbers, using the words 'all, some, none?'

E.g. 2, 7, 11

"**All** of the numbers are prime"

"**Some** of the numbers are odd"

"**None** of the numbers are factors of 15"
