

Snap Science Overview

Cycle A

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Y1/2	Seasons	Human body and senses	Growing seeds and plants	Naming and describing materials	Changing materials	Growing healthy plants
Y3/4	Rocks, soils and fossils	Light and shadows	Movement and nutrition for the human body	Digestion and food chains	Sound	Classification of plants and animals
Y5/6	Classification of living things	Evolution and inheritance	Earth and space	What light does	Properties and uses of materials	Body health

Cycle B

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Y1/2	Local habitats	Properties and uses of materials	Growing up (animals and humans)	Choosing materials	Animals (vertebrates)	Identifying plants and their parts
Y3/4	Changes of state	Forces, frictions and magnets	Electricity circuits	Human impact on the environment	Flowering plants and plant growth	Flowering plants life cycle
Y5/6	Forces and mechanisms	Separating mixtures and changing materials	Human circulation	Plant and animal life cycles	Electricity: changing circuits	Human growth
